Soil Erosion
Existing Dirt Road

25X1A9a

Dear

25X1A9a

Contents of your letter of 3 March 1954, same subject, have been reviewed and discussed with [REDACTED], who is in agreement that it would be preferable to have whatever work is necessary to protect the property done under the present contract. The feasibility of so doing would depend upon availability of money to handle the work and the relative likelihood of its being done at a good price as an extra.

From your discussion of the erosion problem, it would appear that the recommendations of a soil conservation specialist would be of value in determining the extent of work to be done. It is suggested that you obtain such recommendations and submit a proposed scheme for this as well as the road work to the Contractor for a proposal. This should then be forwarded to this Office with your comment for the possible issuance of a change order.

Very truly yours,

25X1A9a
